INSTALLATION INSTRUCTIONS

For Ops-Core® ARC-style, M-LOK® and Team Wendy® EXFIL® Rail Systems

FOR 3M™ PELTOR™-STYLE HEADSETS

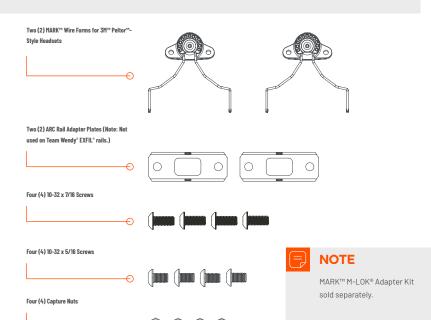

CONTENTS

PRODUCT OVERVIEW

MARK[™] provides seamless integration of many popular electronic hearing protection, including all 3M[™] Peltror[™] ComTac[™] systems with most popular helmet rails, including Ops-Core® ARC-style, M-LOK® and Team Wendy® EXFIL® rail systems.

ATTACHING PELTORS TO MARK™

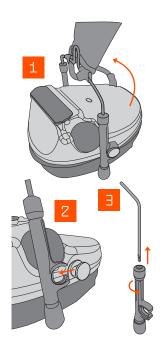

IF YOUR HEADSET HAS A HEADBAND, THE HEADSET MUST BE FULLY DISASSEMBLED FROM THE HEADBAND BEFORE PROCEEDING WITH INSTALLATION. THIS MAY INCLUDE IRREVERSIBLE CHANGES, SUCH AS REMOVING A CABLE FROM A SEWN CHANNEL ON THE HEADBAND.

Pivot headband stems from 90° on ear cups to line up with flats on posts.

Pop stems off posts. Be careful not to damage C-Clamps.

Turn stems 90° on wire forms and pull off wires. Failing to turn stems first may result in damage to stems.

A Reassemble in reverse order on MARK™ wire forms.

ATTACHING MARK™ TO ARC-STYLE RAILS

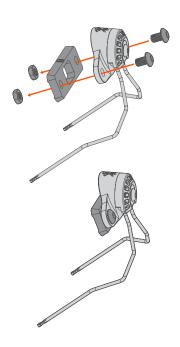

NOTE

The ARC Adapter Plates are designed to work with genuine Ops-Core® ARC rails. They are also compatible with similar ARC-style rails, but may require slight fitting. If the ARC Adapter Plate is too tight in a non-Ops-Core® rail, carefully remove material with a fine grit sandpaper until optimal fit is achieved.

Install two Capture Nuts into the rear side of the ARC Adapter Plate as shown.

Slide the ARC Adapter Plate assembly into the center channel on the ARC rail.

Using the included 10-32 x 5/16 Screws (shorter screws), secure MARK™ assembly to the backer. Lightly snug both screws before applying torque to either. **Do not** exceed 10 in-lbs (1.13 Nm).

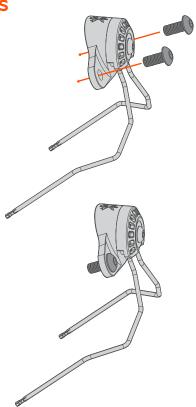

i

If not already uninstalled, remove the two OEM screws holding the W Spacer Plate in place from both Team Wendy® EXFIL® 2.0 or 3.0 rails. Leave the W Spacer Plate in place.

Using the included 10-32 x 7/16 Screws (longer screws), secure MARK™ assembly to the rail. Lightly snug both screws before applying torque to either.

Do not exceed 10 in-lbs (1.13 Nm).

ATTACHING MARK™ TO M-LOK® RAILS

 $MARK^{TM} M-LOK^{\otimes} Adapter Kit$ sold separately.

Using the 10-32 x 3/8 Screws and M-LOK® Nuts included separately with the MARK™ M-LOK® Adapter Kit, insert the Screws through the MARK™ body and into the M-LOK® Nuts as shown.

Secure the MARK™ assembly to the M-LOK® helmet rail using normal M-LOK® mounting procedures. Lightly snug both screws before applying torque to either. **Do** not exceed 10 in-lbs (1.13 Nm).
